John Nicholls Trading Ltd

DRY FIX COMPONENTS

ONE DAY

Designed to give merchants, specifiers and contractors a practical insight into our range of dry fix products, their application and correct installation.

A combination of classroom presentation and hands-on workshop experience with our products, this course conveys the basic principles of roofing with the inclusion of changes to British Standards and the reasons behind the move to dry fix components.

OVER THE COURSE OF THE DAY, YOU WILL:

- Discuss the basic principles of roofing
- Discuss the recent changes to British Standards and the reasons behind the move to dry fix components
- Assemble a roof rig and install a dry fix verge and ridge system
- Understand the correct installation principles for a range of Redland dry fix products
- Install and review both low-level and high-level ventilation systems
- Use and review a selection of tile clips
- Gain confidence in selling and promoting the benefits of Redland dry fix components

DURATION

Held over one day, with a 9am start and an approximate 4pm finish. Teas, coffees and lunch provided.

TO BOOK

Simply call 01285 863543 or email training.redland@monier.com to find out the next available course dates.

COST

This course is free of charge to account holding merchants, contractors and distributors. A fee of £95 + VAT is chargeable for other delegates.
