PLAIN TILE RANGE

TAKE A CLOSER LOOK
NATURALLY REDLAND

“At Redland it is our aim to deliver high-quality roofs that are easy to specify, buy, install and own.”

Redland is a brand of the worldwide Braas Monier Building Group (BMBG). With operations in 50 countries and over 100 production sites, BMBG is the leading worldwide supplier of pitched roofing materials. Our goal is to deliver high-quality roofing solutions that perfectly meet our customers’ expectations.

Redland draws on the expertise and experience gathered from nearly 100 years as an industry leader. Our range of tiles, slates, renewable energy systems, fittings and accessories, combined with market-leading technical support services, enable us to deliver total pitched roofing solutions you can rely on.
Chances are you know someone who has been on one of our courses.

As well as an unrivalled range of roof tiles and systems, Redland has developed a comprehensive range of free technical services to save you time and provide complete peace of mind in your roofing project.

**REDLAND TECHNICAL SOLUTIONS**

SpecMaster is a free roof specification service and guarantee that provides NBS-based specification clauses. Easily integrated into your own working document, a SpecMaster specification will save you time, and comes with the added reassurance of a comprehensive 15-year design liability and roof weathertightness guarantee.

**REDLAND TECHNICAL SOLUTIONS**

Staffed by industry experts with both the technical and real world knowledge of designing with Redland systems, our Technical Solutions team's service will help you bring your project to fruition with industry-leading knowledge every step of the way.

**CPD AND TRAINING**

Our purpose-built Redland National Training Centre at South Cerney in Gloucestershire is where Redland personnel, customers, suppliers and specifiers regularly undertake in-depth classroom and practical training. Since it was established in 1983, more than 45,000 people have been trained at the Centre.

As a member of the RIBA CPD Providers Network, we are also able to deliver training sessions, using accredited materials, at customers' own premises.

Visit www.redland.co.uk/services for further information on these services.
The name ‘plain’ belies the incredible scope and variety of this uniquely versatile roofing material.

Fired clay plain tiles were in use as early as the 14th century. But it was only after the Great Fire of London in 1666, when thatched roofing was no longer allowed in the city that their use became widespread.

The Redland plain tile range offers a huge selection of colours and finishes to match the many and varied styles still seen around the UK. With a wide choice of clay and concrete tiles suited to almost any pitched roof design, they will produce striking roofs of timeless quality.

Plain tile products are priced according to their colour and surface finish; they are designated as Traditional, Heritage, Premier and Premier Plus. Note that this classification does not apply to Rosemary Clay plain tiles.

*15° in certain circumstances
* Depends on headlap used; refer to product pages for all technical information
Random textured surfaces, irregular front edge distortion and varying hanging lengths combine to give Rosemary Clay Craftsman the look of traditional handmade clay tiles.

A unique manufacturing process on a bespoke production line enables tiles to be produced with a heritage look while maintaining all the attributes and strengths of a brand new tile.

**KEY ADVANTAGES**
- Irregular front edge distortion and varying hanging length
- Replicating look of genuine handmade clay tiles
- Three classic colours

**TECHNICAL DATA**

- **Size (overall):** 265 x 165mm
- **Minimum Pitch:** 35°
- **Maximum Pitch (subject to fixing specification):** 90°

Hawkhurst (Sanded)
A traditional warm bright clay with authentic natural textures to create a heritage look.

Albury (Sanded)
A traditional warm dark reddish clay with authentic natural textures to create an aged heritage look.
A dark and blackened clay with authentic natural textures to create an aged heritage look.
Produced from the finest clays, Rosemary is offered in a range of weathered, brindled and single colours.

**KEY ADVANTAGES**
- Rosemary brand synonymous with clay plain tiles
- Smooth and sanded finishes
- Mellows naturally with age

The Rosemary name is synonymous with quality clay plain tiles. For over 175 years Rosemary has been adding character to British roofs.

Rosemary Clay Classic, Red, Mansion House, Shandwick, Troon, Scotland.
ROSEMARY CLAY CLASSIC | 80 Red

Our most popular classic red in varying shades.

ROSEMARY CLAY CLASSIC | 81 Light Mixed Brindle

A variable mix of light brindled and red clay tiles which create a pleasing textured roofscape.
ROSEMARY CLAY CLASSIC | 82 Medium Mixed Brindle

Our most popular clay tile. A variable mix of medium-toned brindled clay tiles which create a pleasing roofscape.

ROSEMARY CLAY CLASSIC | 83 Heather Brindle (Sanded)

A sanded tile that combines a palette of subtle purple and orange clay hues that simulate reduction kiln-firing.
**ROSEMARY CLAY CLASSIC**

**87 Blue Brindle**

Simulates the striking variable blue hues that come from Midlands reduction kiln-fired clay.

---

**91 Burnt Blend (Sanded)**

A classic red, where red and black sands partially coat the surface to create a highly distinct finish, for a characterful roof.
ROSEMARY CLAY CLASSIC | 94 Russet Mix (Sanded)
A sanded tile with a mix of varying brown tones to give a rich textured rooftscape.

ROSEMARY CLAY CLASSIC | 95 Dark Antique
A unique dark finish imitates the historic smoke-tarnished roofs often found in the South.
HEATHLAND

Heathland combines natural weathered character with the performance of a machine-made tile in an attractive and cost-effective roofing product.

Variation in hanging length, irregular sides and subtle surface texturing, finished with randomly applied fine sands combine to create all the visual features of a handmade clay tile.

KEY ADVANTAGES

- Concrete tile with randomly applied fine sand coating
- Varying hanging length
- Offers practical and economic alternative to handmade clay tiles

Ornamental Tiles, Ridges and Finials

Please refer to page 63.
HEATHLAND | 20. Manor House Mix (Granular)

A popular mix of natural earth with a vibrant secondary orange colour and granulated surface texturing.

HEATHLAND | 22. Wealden Red (Sanded)

A warm vibrant red with fine sand surface finish to create a pleasing textured roofscape.
HEATHLAND | 23 Autumn (Sanded)

A red-bodied tile with a green-hued fine sand surface finish to simulate the attractive lichen growth often found on an aged roof.

HEATHLAND | 25 Ember (Sanded)

An orange-bodied tile with a burnt brown granular surface effect, creating a pleasing textured roofscape.
Elizabethan (Sanded)

A deep red-bodied tile with a fine black sand surface finish, creating a pleasing textured roofscape.

A range of colours that offer real alternatives to handmade clay tiles.
Available in a range of fourteen natural shades, granular, through-coloured and acrylic coated, to match any roofing environment.

PLAIN TILE | 02  Brown (Granular)
An established brown tile with a granulated finish popular across the UK.

PLAIN TILE | 03  Antique Red (Granular)
A deep red with a granulated surface finish to give rich texture.
PLAIN TILE | 12 Cotswold (Granular)
Emulating the old world colour, tone and texture of natural Cotswold stone.

PLAIN TILE | 18 Hedgerow Brown (Granular)
A domestic brown shade with a granulated surface finish for texture.
PLAIN TILE | 27 Natural Red (Sanded)

Through coloured with a fine sand partial coating to emulate the colour of natural aged clay roof tiles.

PLAIN TILE | 30 Slate Grey

A popular grey colour, inspired by the appearance of natural slate.
PLAINTILE | 34 Terracotta

The traditional fired-clay red of terracotta tiles.

PLAINTILE | 36 Tudor Brown

A traditional period brown.
PLAIN TILE | 39 Farmhouse Red
A popular terracotta red with a dark colour effect to imitate the attractive aging of a rain-streaked roof.

PLAIN TILE | 52 Breckland Brown
A traditional brown tile with a red-tinged streaking effect to simulate a weathered roof.
PLAIN TILE | 53 Breckland Black

A slate-like grey tile with a red-tinged streaking effect to simulate a weathered roof.

PLAIN TILE | 63 Black (Coated)

Our very darkest tile set off by a subtle sheen finish.
PLAIN TILE | **77** Charcoal Grey (Coated)

A rich dark colour set off by a subtle sheen, particularly favoured in the North of England and Scotland.

PLAIN TILE | **78** Rustic Red (Coated)

A deep red set off by a subtle sheen and with a dark colour effect to imitate the attractive aging of a rain-streaked roof.
DUOPLAIN

Engineered for strength, ease of handling and ease of installation, it fulfils the three main demands of a modern roofing tile. Available in seven popular colours.

KEY ADVANTAGES
• Two plain tile segments give the appearance of a smaller format tile
• Quick and cost-effective to lay
• Seven colour variations to match regional styles and materials

DUOPLAIN combines the classic proportions and good looks of traditional plain tiles with all the time and cost-saving benefits of a modern, large-format, interlocking tile.

16 Charcoal Grey (Coated)
17 Rustic Red (Coated)

DuoPlain, Rustic Black, Private Houses, Lydd, Kent
DUOPLAIN | 11 Tuscan Red (Coated)

Bright and pleasing orange-red tone, set off by a subtle sheen.

DUOPLAIN | 38 Flame Red (Coated)

A full-bodied red tile set off by a subtle sheen, with a dark colour effect to imitate the attractive aging of a rain-streaked roof.
Rustic Brown (Coated)

A homely brown tile, with a particular colour effect to feign a pleasantly aged roof, and set off by a subtle sheen.

DuoPlain gives the appearance of traditional plain tiles but with the added benefit of being able to be laid at pitches down to 25°.
DUOPLAIN | 45 Rustic Black (Coated)

The appearance of a dark slate, with a particular colour effect to feign a pleasantly aged roof, and set off by a subtle sheen.

DUOPLAIN | 64 Blue (Coated)

An intense dark blue-grey in a burnished finish.
DUOPLAIN | 97 Charcoal Grey (Coated)

A rich dark colour set off by a subtle sheen, particularly favoured in the North of England and Scotland.

DUOPLAIN | 78 Rustic Red (Coated)

A deep red set off by a subtle sheen and with a dark colour effect to imitate the attractive aging of a rain-streaked roof.
With lower costs and shorter completion times, Fontenelle offers all the benefits of a clay plain tile roof at an affordable price.

**FONTENELLE INTERLOCKING CLAY PLAIN TILE**

A clay tile that offers a plain tile appearance, but with the benefits of reduced labour and material costs.

Fontenelle Interlocking Clay Plain Tile, Brindle, Oakside Homes, Retford, Nottinghamshire

**KEY ADVANTAGES**

- Tested down to a minimum pitch of 20° and in certain circumstances, 15°
- Makes a clay plain tile appearance roof more affordable requiring only 19.6 tiles/m²
- Reduces labour and material costs and cuts completion times
Our very darkest tile set off by a subtle sheen finish.

A terracotta red.
A rich terracotta colour with a subtle brindling effect.

Fully wind tunnel tested for use down to a minimum pitch of 20°.
Redland offers three concrete ornamental ridges and four finials for both Universal Angle and Half Round Ridges, designed to replicate the most popular ornamental features found within the built environment.

With decorative effects being incorporated more frequently into roof designs, we offer the Club ornamental tile in all our clay and concrete plain tile colours.

**Key Advantages**
- Ornamental Ridges and Finials are fully compatible with all our ridge fixing systems.
- Club Tiles have a guaranteed performance in all weather conditions down to 40º pitch.

### CUSTOMER SERVICE

CUSTOMER SERVICE: 03705 601000
WWW.REDLAND.CO.UK
The information contained in this Guide relating to DuoPlain and Fontenelle recommendations are complied with of BS 5534:2014: Code of practice for slating and tiling, providing our fixing high wind and driving rain are used to determine the products’ performance with Performance. Rosemary clay plain tiles are extruded; Fontenelle tiles are pressed.

Composition and Manufacture
Concrete tiles are manufactured by a high-pressure extrusion and compression process. Rosemary clay plain tiles are extruded Fontenelle tiles are pressed.

Performance
All tiles have been rigorously tested in our wind tunnel where combinations of high wind and driving rain are used to determine the products’ performance with respect to wind loading and weather tightness. Tiles will meet the requirements of BS 5534:2014: Code of practice for installing and fixing providing our fixing recommendations are complied with.

The information contained in this Guide relating to DuoPlain and Fontenelle is based on a maximum rafter length of 10 metres at the minimum pitch relevant for the product. For rafter lengths greater than this telephone technical solutions on 03708 720395 for advice.

The minimum pitch and maximum rafter length may be affected by roof features such as valleys, dormers, roof windows and chimneys for advice on the inclusion of such features in a roof slope contact Technical Solutions.

Movement
-designed vertical and horizontal laying tolerances will accommodate normal thermal and other movements.

Fire Resistance
All tiles are non-combustible and are classified S1,A1 when tested for fire protection and spread of flame to BS 476-5:2004. Fire tests on building materials and structures there are no restrictions on their use under the Building Regulations.

Strength and Durability
Tiles do not delaminate and despite having high strength properties, are easy to cut. All Redland clay and concrete tiles exceed the minimum strength requirements as laid down in BS EN 1304 or BS EN 470 respectively.

Environmental Effects

Heat unaffected by fire action. Heat unaffected by temperature extremes. Sunlight unaffected by prolonged exposure to ultraviolet light and sunlight. Atmospheric pollutants suitable for all rural marine and normal industrial environments. Resistant to all but the most highly polluted atmosphere, where sulphur dioxide levels exceed 70 microgrammes/m³ of air.

Biological Effects

Mosses and lichens: tile durability is not affected by the growth of lichens and mosses. However, the removal of growths may be necessary when the flow of rainwater off the roof is impeded, and valleys, gutters, or downpipes become blocked.

Health & Safety
Material Safety Data Sheets covering properties, storage and safe use of our products are available for download from our website www.redland.co.uk. Please consult Redland Technical Solutions for more information.

Technical Solutions for more information.

where standards are referenced compliance is always with the latest version. Drawings shown are diagrammatic and should not be sized refer to CAD drawings in DesignPlater CAD library for specific dimensions. The limitations of printing may mean a slight variation in colour. Please refer to a sample list for best colour reference. We are committed to continually enhancing and improving our product range. We reserve the right to change product specifications for the latest information please contact customer service.

Project photographs should not be used as a guide to installation.
